**Implementation Feasibility of Training Technology Enhancements & Innovations
for Improving Board and Stakeholder Training**

As previously directed by the Board, a report presented by the Executive Officer dated May 20, 2015 regarding training technology enhancements and innovations for improving Board and Stakeholder training and education was presented to the Executive Management Committee.

The report provided a "Top 5" list of technology initiatives for Board consideration accompanied by a brief summary of how the proposed innovations would advance BPM strategic goals and objectives.

The Top 5 list included technology enhancement ideas that are foreseen as tools to advance the mission of the Board.

I, THEREFORE, MOVE that the Board of Podiatric Medicine:

1. Instruct the Executive Officer to investigate the feasibility of implementing the technology initiatives identified in the "Top 5" List of Priority Ideas for possible incorporation as actions items to assist meeting BPM strategic goals and objectives and report back in September.
